Fire protection Structural assessment

Company Profile

PfeiferINTERPLAN represents more than 30 years of continuous success in the field of construction consulting, particularly in the area of structural design. With our roughly 100 employees throughout our various offices we form a reliable project partner. Our competence and innovation allow us to meet the challenges in the construction of both new and existing structures. We see ourselves playing a leading role in the process of constructional design and implementation. Most of our projects are located in prominent places and are of public interest. This has to do with the fact that, over the years, many clients in the public sector have placed their trust in us. To keep the momentum of our success going we are looking for new talents to join our teams. Young professionals are welcome!

For our office in **Darmstadt** we are looking for immediate placement
